

## Moscato Giallo

The unmistakable Muscat bouquet redolent of ripe grapes and dried fruit introduces a palate that is delicately aromatic, dry and fresh. The firm acidity and elegant structure, derived from the limestone gravel soils it grows in, recommend our Goldmuskateller as a zesty aperitif wine. To be enjoyed with light canapés, “spoon foods” and fresh antipasti.

The Entiklar vineyard is located just outside the village of Margreid. Its limestone gravel soils offer the ideal nutrition for our Goldmuskateller grapes, providing them with their unique aroma.
